

Information required for the recovery of a specific animal disease status

Note: You might provide the dossier submitted to the OIE instead of answering each question below

1. Information on the outbreak of a specific disease in the country
 - 1.1. Chronology and summary of the recent outbreaks
 - 1.1.1. Summary of the outbreaks from the first case to the eradication
 - 1.1.2. Details on the each outbreak (region, species, type of holding, affected animals; susceptible/cases/deaths/destroyed, etc.)
 - 1.2. Characteristics of the isolated virus (eg. strain, serotype, etc.)
 - 1.3. Measures taken in response to the outbreaks
 - 1.3.1. Zoning (infected zone, protected zone, and surveillance zone)
 - 1.3.2. Movement restriction (targets, duration, lifting condition)
 - 1.3.3. Destruction and disposal of animals
 - 1.3.4. Cleaning and disinfection
 - 1.3.5. Emergency vaccination
 - 1.3.6. Other control measures
 - 1.4 Extensive active surveillance around the outbreaks and epidemiologically related holdings
 - 1.4.1. Surveillance method: agency responsible for the surveillance, testing methods, type of sample, number of holdings and animals targeted, number of samples tested, etc.
 - 1.4.2. Results of the surveillance
 - 1.4.3. Others (test conducted for lifting movement restrictions)
 - 1.5. Results of epidemiological investigation followed by the outbreak (including the route of introduction and transmission of the agent, if possible)
2. Results of confirmation of the disease freedom in the country
 - 2.1. Method and results of the surveillance to prove a country's free status for the specific disease
 - 2.1.1. Surveillance method: testing methods (virological or serological), type of sample, number of holdings and animals targeted, number of samples tested, etc.
 - 2.1.3. Others (test results for restocking)
 - 2.2. Method and results of the routine national surveillance in the country
 - 2.2.1. Summary of a specific disease surveillance program
 - 2.2.2. Results of a recent surveillance (passive and active surveillance)
3. Others
 - 3.1. Information on changes for restructuring of veterinary services and its management
 - 3.2. Information on revision of legislation for animal disease prevention act
